

FACTS ABOUT HEAD LICE

- Can only live off the human scalp for 48 hours.
- Head Lice don't have wings or hind legs.
- Head Lice cannot fly or jump.

Lice may live for several weeks on a person up to 6 eggs per day, roughly 90 eggs during the female life span.

- They are resistant to attack & do not discriminate between clean or dirty hair types.
- Head lice have very sharp claws that dig into the scalp & hold on while you are washing your hair making it impossible to rid them.
- Eggs hatch after 7 days.
- New Lice are laying eggs by the time they are 16-18 days old, by the time you start scratching & feeling them making their new home in your hair you already have hundreds of them.

Blitz The Nitz are here to help you Breakthrough the never ending cycle of head lice. Unless you eliminate them all along with the eggs they will continue to re-infest. We will save you time & money.

I have been a Hairdresser for 20 Years, I am also trained as a Dental nurse & have a Cert 4 in infection control ensuring a clean clinical environment.

I am a mother with 3 children that are now all in primary school, with my daughter I've had issues with head lice, over time I have tried a lot of the pharmaceutical products in which none were successful. My research to find a solution to solve this issue (in which has been successful) sparked an idea to start up my business "Blitz The Nitz"

We take you through a 6 Step procedure in which we eradicate the Head Lice once & for all.
