About the webinar

Adolescence has a way of transforming children's brains that can make communication challenging, especially with teenage boys who often start articulating in monosyllabic grunts. These brain changes also make them more sensitive, volatile and critical of themselves, making the tween/teen years a high-risk window. In this webinar, Maggie Dent shows how using compassionate, empowering communication with teenage boys can better guide them across the bridge to healthy manhood to a place where they feel worthwhile and engaged in respectful relationships.

Key learning and discussion points include:

- communicating effectively
- giving feedback
- avoiding arguments
- helping teenage boys to problem solve
- letting our sons know we really hear them, and that they matter

The webinar will be held on 24 March 2021 at 8–9 PM AEDT.
